Dr. Kirtley presented the Board with the Authorization to Conduct Board of Pharmacy Oversight Activities form. This form is to be signed by the Board president and allows the Board of Pharmacy's Executive Director, Assistant Director, and Inspectors authorization to enter pharmacies and review records on behalf of the Board.

Dr. Kirtley told the Board the "What to Expect When We're Inspecting" presentation the Board staff put on at the APA Pharmacist Convention was well received. He said they also had a big CBD oil discussion because so many people there had questions about CBD.

*Discussion Items:*

The Board discussed CBD and Arkansas Act 504, which Dr. Kirtley said will be effective this summer. He said this specific Act will help to match federal law as to what is or is not legal to possess as far as Cannabidiol or similar products. Dr. Kirtley explained that if it has a THC content of less than three percent it would match the federal law and therefore be legal for possession. However, he explained that there were a lot of concerns around the nation that people are buying CBD which they think has no THC in it and are taking it and then losing their jobs when they fail to pass a drug screen. Dr.

Kirtley said there are potential issues according to FDA if someone is selling CBD and telling people it is for a medicinal reason because then you are selling something with a medicinal benefit which hasn't been approved by FDA. Currently, the Board has not directed staff to use this as a primary focus of any investigative activities – staff is trying to educate people on the fact that this is not a simple issue. He said in fact, it is a very complex issue, and would not be surprised if the Board starts receiving complaints from customers claiming they bought CBD from a pharmacy and it didn't help them or they bought CBD and lost their job because they tested positive for THC, etc. Dr. Kirtley said either way it looks to be complicated.

Eli Vinson, with Medical Center of South Arkansas; Richard Woodrow, with Northern Louisiana Medical Center; and Josh Kimbrow, with Siloam Springs Regional Hospital, appeared before the Board to request changing their overnight remote order entry coverage for Medical Center of South Arkansas from Pipeline to Northern Louisiana Medical Center – which is in the same corporate structure.

Dr. Keathley and Charlie Brinkey appeared before the Board to request the ability to have an emergency kit onsite for the Alexander Juvenile Assessment and Treatment Center. Dr. Kirtley explained this is different from other emergency kit requests since there is not 24 hour nursing coverage at this facility. Mr. Daniel explained this request was presented to the informal committee and it was suggested they remove the controlled substances from the list and reappear before the the full Board for approval. The Board discussed approved quantities for the kit.

Mr. Daniel said that under Arkansas Case Law he would have an appearance of bias in this matter and he asked Dr. Lancaster to recuse from voting. He said he could assist with the presentation, but asked again that he recuse. Dr. Lancaster refused to recuse; he said he wanted to be an advocate from the long term care aspect and he also wanted to have a vote. He said that he did not think it was a conflict of interest. Dr. Bryant spoke in favor of Dr. Lancaster remaining on the panel unless he felt he could not make a decision without bias. Dr. Lancaster remained on the panel for the PointClickCare presentation.

Steve Napp, Director of Pharmacy Sales and Intergrations with PointClickCare appeared before the Board to request approval for his software to be sold to pharmacies for a two-way communication between Arkansas pharmacies and long term care facilities.
